

JOURNAL OF WILDLIFE and PARKS

CALL FOR PAPERS

OVERVIEW

The Journal of Wildlife and Parks (JWP) is the official journal of Department of Wildlife and National Parks (DWNP). It is an open-access and peer-reviewed journal published annually by the Department of Wildlife and National Parks.

JWP was founded in 1982. Since then, 29 volumes have been published and are freely available at the journal's webpage link <http://www.wildlife.gov.my/index.php/en/list-of-publications.html?id=23>

AIMS AND SCOPE

JWP is a broad-based journal devoted to the publication of original researches that contributes significantly to the knowledge in wildlife sciences. As a multidisciplinary journal, areas relevant to the scope of the journal include: protected areas, biodiversity management and conservation, wildlife law, eco-tourism, ecology, taxonomy and systematics, checklist and wildlife inventories, genetics, forensics, biochemistry, biomedical, and wildlife zoonoses and veterinary sciences.
